

ENVIRONMENTAL SUSTAINABILITY POLICY

Rotunda Ltd recognises that its activities have the potential for both positive and negative impacts upon the environment at local, national and global levels. We acknowledge our responsibility for environmental protection and also aim to contribute to the national commitment to sustainable development. The positive environmental sustainability aspects of research and teaching and learning will be promoted.

Rotunda Ltd will seek to achieve continual improvement in how it understands and responds to its environmental impacts.

Rotunda Ltd commits itself to:

- Communicate its environmental policy and strategy to staff, learners and other stakeholders and to raise awareness amongst these groups of their own environmental responsibilities and requirement to commit to environmental improvements;
- Reduce its carbon footprint through prudent use of fossil fuels (through energy conservation, management and efficiency within buildings) and to switch to low-carbon fuel alternatives where possible;
- Manage and reduce water consumption;
- Maintain a travel plan to reduce single occupancy vehicle use to our sites;
- implement measures to encourage walking, cycling and the use of public transport as principal modes of commuting and business travel for staff, learners and visitors;
- Reduce waste created and where possible to reuse and recycle before responsible disposal of surplus materials; to use recycled and recyclable materials wherever possible;
- Protect natural habitats and encourage local wildlife and biological diversity of Rotunda's managed land;
- Refurbish and develop the Rotunda estate in a manner that avoids negative environmental impacts and enhances the local environment;
- Avoid or limit wherever practical the use of environmentally-damaging substances, materials and processes.
